

# Handheld rock drill breaking stone video

How do you break a rock with a rotary hammer?

Exposing as much of the rock as possible will make it easier to break. Using a rotary hammer drill, create several holes in the rock's surface. Drill as deep as the wedges require and clear out any dust to help the wedges grip. Spacing the holes evenly around the rock will help you get cleaner breaks.

What makes hrd28x a good rock drill?

Using standard integral drill steel with air-flushing from an external compressor and a high-performing hydraulic impact and rotation unit makes the HRD28X a lighter, more powerful, and more efficient rock drill.

How do you drill a hole in a rock?

Using a rotary hammer drill, create several holes in the rock's surface. Drill as deep as the wedges require and clear out any dust to help the wedges grip. Spacing the holes evenly around the rock will help you get cleaner breaks. Now, insert a wedge between two feathers in each hole, making sure the feathers face outward.

How do you use a hycons Rock Drill?

Combined with a compressor of your choice, this rock drill is made for underwater drilling, making it the professional divers' rock drill choice no. 1. Simply connect it to one of HYCONS's compact hydraulic power packs and a compressor - and start drilling.

How do you use a rock splitter?

First, drill a hole of the appropriate depth and diameter. Next, insert the wedge of the rock splitter into it and align it to determine the direction of splitting. Start the hydraulic power unit, and the hydraulic power unit outputs a pressure of 60Mpa to the rock splitter.

Which Rock Drill is best for underwater drilling?

The HRD28X rock drill is ideal for anchoring holes and blasting or splitting holes measuring 25-50 mm when drilling deeper with maximum air flushing. Combined with a compressor of your choice, this rock drill is made for underwater drilling, making it the professional divers' rock drill choice no. 1.

See the full video on Jesse's channel @jtmuller86? The 4Z1 Handheld Drill is our most popular selling core drill for concrete, reinforced rebar, asphalt, brick, stone and masonry.

Discuss on this video are the four different methods on how to break huge rocks. Some of these methods are also applicable for breaking hard concretes. Read it...
