

Swedish and Chinese new hydraulic

Who is nordhydraulic?

Nordhydraulic develops and produces high-pressure hydraulic valves and hydraulic components for mobile applications. Nordhydraulic's hydraulic valves for mobile systems can be found on every continent, impacting industry and machinery on a daily basis. Industries such as agriculture, construction, material handling and forestry.

Where can nordhydraulic valves be found?

Nordhydraulic's hydraulic valves for mobile systems can be found on every continent, impacting industry and machinery on a daily basis. Industries such as agriculture, construction, material handling and forestry. With 40 overseas subsidiaries and more than 500 sales and service partners.

When did Arcos Hydraulik become a company?

The merged company was named Arcos Hydraulik. In 1942, Jämsän Konepaja och Valimo Oy (JKV) was founded in Vyborg, Russia. A couple of years later the company moved to Lahti, Finland, and in 1950 started developing hydraulic and pneumatic solutions. The JKV brand was introduced in 1965 and the company started exporting hydraulics.

What happened to Arcos Hydraulik?

In 2018, the company merged with PMC Cylinders in Sävsjö, Hällaryd and Arcos Hydraulik in Borlänge. The Finnish division was named Arcos Hydraulik Oy. Arcos Hydraulik provides custom made hydraulic cylinders and special hydraulic products for demanding industrial applications.

When did Arcos Hydraulik merge with Sävsjö & Hällaryd?

The Sävsjö and Hällaryd unit merged with PMC Cylinders in Nastola and Arcos Hydraulik in Borlänge. The merged company was named Arcos Hydraulik. In 1942, Jämsän Konepaja och Valimo Oy (JKV) was founded in Vyborg, Russia. A couple of years later the company moved to Lahti, Finland, and in 1950 started developing hydraulic and pneumatic solutions.

Are Arcos Hydraulik and PMC cylinders the same company?

In the summer of 2018, Arcos Hydraulik and PMC Cylinders in Sävsjö and Hällaryd merged to form a new company named Arcos Hydraulik. The companies share many points in common, which promises an unbeatable combination.
